Pricing :

Standard design (front page and left) **\$890**
(PVC construction - roof zips into bag and stays in place - walls Velcro on after roof is erected)

Deluxe Annexe Shower Room (above) **\$2200**
(adds an extra room to your annexe)

Our range of Toilet / Shower annexes has a design to fit almost all caravan, motorhome or camper trailers on the market today .

The standard design has a height made to suit each van and it has a floor space of 1400mm along the van and 1000mm out from the van. It has a zippered door offset to one side and is a four sided structure that sits 200mm out from the van so it can be fitted over windows or vents or even to the rear on some vans. Fitting is via rope track on the top and four brackets. The frame easily clips onto the brackets and tightens the unit in seconds. There is enough space to comfortably fit a PortaPotty, it is also fitted with hanging rings to take a shower head. The walls remove and pack into a small bag. The roof and frame zips into a bag which remains in place on the van.

The Deluxe Annexe Shower Room adds an extra room at the rear including an internal shower curtain and a zippered window.
