Extras:	'A' Frame Cover	\$250 incl GST
	Cover Rear Rack	\$250 incl GST
	Zip around fridge vent	\$70 incl GST

## Caravan Cover Information:

Why are caravan covers so expensive? Because they are very large canvas products that take enormous amounts of fabric to produce and to fit properly need to be custom made for each van to allow for awnings, air conditioners, aerials etc. The material cost alone will account for 60% - 70% of the price. (Imagine how an imported cover can cost \$200 to \$400 even though it still needs 20 - 40 metres of fabric)

Can my cover really go on in under a minute? Yes, if you look on our website at [www.adelaideannexe.com.au](http://www.adelaideannexe.com.au) and find caravan covers, you will be able to view a video of the fitting and removal of one of our covers.

How long does it take to have a cover made? We normally only book in one or maybe two covers per week. We need your van for a week and lead time to book is normally 3 to 4 weeks.

If I don't live interstate can I still get a cover? With modern technology, we are able to supply a custom made cover for your van from very specific photographs and just 2 or 3 simple measurements. Our covers are cut by an automated machine from computer generated plans and only because of 40 years of experience are we able to overlay these plans from your photographs.
